cylamatt@gmail.com

No.(15), Mahhar Zayyar Street Pazundaung Township

ABOUT ME

I have strong communication skills and can interact confidently with people from various countries, including Bangladesh, Singapore, Australia, Malaysia, and Germany.

I have completed an individual project focused on phishing attacks, which gave me practical knowledge of cybersecurity threats and how to prevent them.

Additionally, I have worked on several technical projects involving website development, programming, database management, and computer system architecture, allowing me to develop hands-on experience and solid technical skills in each of these areas.

SKILL

- Communication Skills (Group Project - Information Systems about Ubisoft)
- Individual Skills (Identifying and avoiding phishing attacks)
- Individual Projects (Website, Programming, DataBase and Computer System Architecture
